A Sure Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any druggist (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and the scalp will be healthy. The arvon will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

Selling Suits at Clearance Prices

Custom makes law—and it has been a custom of ours for many years to cut the price of suits after Easter.

Our reductions are always conspicuous for the depth of them. We cut for a purpose—clearance—and make the attraction as strong as possible. This year's difference from previous years only is that the assortments are perhaps better—and the values certainly are.

In the variety the Blues which are most wanted are largely represented—but there are also plenty of Blacks, Checks, and the Lighter Colors—Trico, Poirer, Serges, Velours, Silvertones, Velour Checks, etc., of exclusive model.

BILLION BUSHEL WHEAT CROP DUE

With a wheat crop of more than one billion bushels, the greatest in the country's history, in sight, the Department of Agriculture sees an immense problem ahead in the handling of the grain. The need for intensive efforts of farmers and handlers in marketing and storing the grain with the least loss and congestion of elevators and railroads is emphasized by the Bureau of Markets.

Last year the crop, of about nine hundred million bushels, was rushed immediately to market, thus filling elevators and backing cars up on the railroads all the way back to the farms. Temporary bins were improvised by growers to store excess grain, but had the winter not been open this season, much of it would have been lost.

A partial solution is advanced by the bureau which advocates stacking wheat in the field, thus preserving it until the farmer is ready to thresh, and is in better condition than if kept in the shock.

The department's market document No. 11 gives plans for granaries for the use of wheat storing.

The performance, which was given under the direction of Miss Minnie Hawke, was for the benefit of the Animal Rescue League. Mrs. Bliss, who is the daughter-in-law of Gen. Bliss, wrote this little fairy play in odd moments between her work for the Red Cross and other wartime activities.

Others who appeared in the various scenes were Misses Henderson, who danced a gavotte Pavlova with Creps Beckham; Marian McCarthy, as the spirit, who was a veritable fairy of the finest type, and who did an exquisite toe dance; and Louise Katherine and Betty Hoosever, who were seen in a trio. Some grown-ups who did some clever things were Mrs. Augustus Deary, formerly Miss Olga, of Boston, who is visiting her relatives here, and Miss Enid Sims, who did her beautiful Spanish dance. A large audience enjoyed the spectacle.

The church decorations as well as those at the house were carried out in white and green, with branches of dogwood, baskets of snapdragons, Easter lilies, palms and ferns. At the house there were touches of pink and blue throughout the decorations.

C., brother of the bride, and the ushers were Lieut. Leonard MacWilliams, U. S. N., cousin of the bride, and Edmund Cammac, U. S. A. The bride wore a gown of white satin and georgette crepe, with festoons of pearls and a giraffe of silver. Her veil was held with orange blossoms, and she carried a shower of white roses and sweet peas.
